

CALLING ALL CIRCUMNAVIGATORS!!

RACE THE MAGELLAN THIS WEEKEND

SATURDAY, SEPT 19!

Did Magellan put his boat away in the Fall? Of course not!

While Magellan's crew may have taken three years to circumnavigate the globe, (poor Magellan never made it having succumbed to a poison arrow in a tussle with some locals) you should make it around our little world safely and in far less time, winds willing.

Beverages and warm food sent by Magellan's sponsor, the King of Spain, or someone else, will await your triumphant return to civilization. But order ahead of time (by Thursday at dusk please) so food can be brought in from afar!

Adventure awaits: You and your loyal crew will be tested by the Bermuda Triangle of Markus Quadricus, cross the slot of no return, explore the cove of Hoopholicus, sail as close as you dare to the bridge of De-Mast-Us, and recoil in fear at the Angry Swan of Green Glade. All seaworthy Flying Scot and Laser sailing vessels are permitted with staggered starts to give all crews a chance at the King's gold. And there will be treasures and celebration for all upon successful voyage home.

And unlike Magellan's crew who finished without their captain, we have a no explorer left behind policy, with patrols at all points of the compass to ensure the safe return to port of any captains ejected by crew.

Royal send off: Saturday, September 19, 2020
Skipper's meeting: 10am, Warning Cannon 11am
Deep Creek Lake Yacht Club at Turkey Neck
